Anchors

Quick Start Guide & Installation CD

#### INSTALLATION

Remove Cover

Align Holes on Wall

Adjust Aim

1. Remove the dome cover using the supplied Torx tool.
2. Mark the positions of the 2 screw holes on the base of the camera at your chosen location.
3. Use a 3/16" drill bit to drill the holes for the anchors.
4. If necessary, drill a 1 1/16" hole for your IP Connection Dongle.
5. Insert the anchors into the drilled holes.
6. Fasten the camera to the wall or ceiling with the supplied screws.
7. Connect the Ethernet cable to the camera.
8. Adjust the camera to the desired angle.
9. If necessary, cut the hole in the designated spot on the housing to allow the dongle to connect without binding.
10. Replace the dome cover. Screw the two Torx screws on the side of the dome cover to tightly fasten the cover in place.

## FOCUSING THE CAMERA

Follow these steps to focus your AvertX dome camera.

1. Use the included Torx Tool to remove the camera dome cover.
2. Loosen the lens set screw.
3. Twist the lens to focus the camera
4. Tighten the set screw.
5. Replace the dome cover.

Twist Lens to Focus

## NETWORK CABLE INSTALLATION

When installing your AvertX dome camera, it is important to consider how the network cable attached to the camera is arranged.

- If passing the cord through a wall or ceiling, drill a 1 1/16" hole.
- If running the cord along a wall or ceiling, cut the notch in the dome housing to allow the cord to pass through the housing.
- For outdoor installations, seal any holes in the wall or ceiling to protect against leaks.

## CONNECTING TO THE CAMERA

If you are using this camera with an AvertX recorder, follow the instructions in the user manual to connect to your camera. You can also set up your camera over the web. The viewer software will automatically be installed on your PC the first time you connect to the camera. If your internet browser doesn't install the viewer software, check the security settings or ActiveX controls and plug-in settings. If your internet browser asks for permission to install the ActiveX control, you must allow the ActiveX control to continue the installation.

**To enable installation of ActiveX controls on Internet Explorer:**

1. From the **Tools** menu, click **Internet Options**.
2. Click **Security**, and then click **Internet**.
3. Click **Custom Level** and ensure that all **ActiveX controls and plug-ins** are set to **Enable** or **Prompt**.

**To add the camera to your trusted sites:**

1. From the **Tools** menu, click **Internet Options**.
2. Click **Security**, and then click **Trusted Sites**.
3. Click **Sites**.
4. Type the **IP Address** of the camera. Ensure that the **Require server verification** check box is cleared.

## USERNAME AND PASSWORD

The username and password are case sensitive. AvertX strongly recommends changing the password after the initial setup to prevent unauthorized access to the camera.

Username – **Admin**

Password – **1234**

### For Further Instruction

For more information on installing your AvertX camera, see the user manual or view instructional videos at [avertx.com/videos](http://avertx.com/videos).
